

Helix T2 Compact Fluorescent Lamps

Available in Warm White and Daylight White

The Helix Evo T2 range offers a more efficient light output than the original helix, within a smaller overall size. The range offers a good choice of cap types and wattages. Available in 2700K warm white, or 6400K daylight white.

- All helix lamps rated A for efficiency
- 240V mains voltage
- Average life 8,000 hours
- Non dimmable
- Switching cycles >8,000
- Time to 60% brightness <30 seconds
- Mercury content <2.3mg
