

PROLITE Switch Mode Desktop Chargers

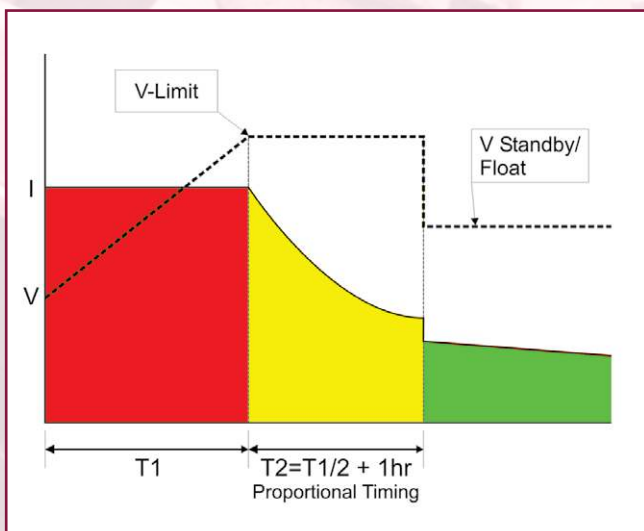

Product Description

Our desk top range of electronic switch mode chargers are protected by a strong steel case yet offer a light weight and efficient solution to battery charging and are suitable for portable applications. 4 LEDs indicate the state of charge and a timed stage ensures the battery is fully charged when the green LED is lit. Some of the units come with automatic sensing of the input voltage and can be used internationally.

Typical applications include golf carts, scooters and general vehicles.
