

G95 LED Dimmable Crackle

Really Warm White

The crackle glazed 4W G95 LED filament lamp offers the same features as our standard 4W G95 LED filament lamp and in addition to this the lamp is fully dimmable. The lamp has a warmer colour temperature than the standard 1800K to give a really warm white for a cosy feel and has a decorative mirrored crackle effect which gives an attractive light with interesting shadows.

- Fully dimmable recommended for use with a V-Pro Dimmer
- 1800k really warm white
- Glass envelope
- Average life 15,000 hours
- Operating Voltage: 240V
