

**15W SENSOR LITE**

**15W BC SENSOR**

**CLOSE UP OF SENSOR**

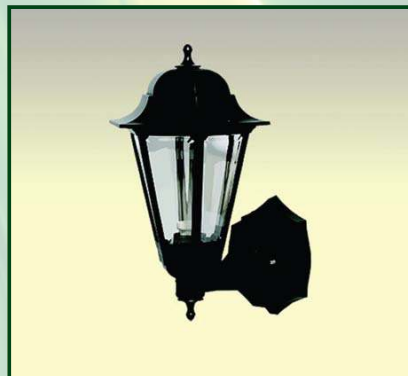

**15W ES SENSOR**

**DESCRIPTION**

The Prolite Sensor compact fluorescent lamp converts standard fittings to a dusk to dawn fitting. Available in BC / ES cap, the sensor lamps are a direct enhancement to existing light fittings, converting them to automatic dusk to dawn. When fitting the lamp requires no manual adjustment. The intelligent sensor adjusts to day length. 2700K warm white colour temperature. A direct retrofit with no additional wiring.

- 15W Sensor Lite - Costs £16.80 per year to run
- 75W GLS Incandescent - Costs £84.00 per year to run
- Integrated photocell switches lamp on and off automatically
- Ideal for security
- 8,000 hours extra long life
- 'A' rated energy rating
- 815 lumen output

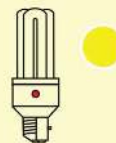

**Automatic Dusk to Dawn**

**Automatic On**

**Automatic Off**
