

Lo-Pro Fitting Free LED Lighting Solution

- High efficiency LED – 100-110 lm/w.
- Low profile compact design to minimize risk of damage.
- Fitting-free design to minimize installation costs.
- Single end power input for ease of installation.
- Free of Glass, clip and mercury to remove risk of contamination with food.
- No UV light eliminating insect attraction.
- Long life span - reduce maintenance requirements
- Low heat output – making it easier to maintain temperature levels.
- Improved colour rendering ideal for inspection areas.
- Scalable design allows one or multiple tubes to be connected as required.
